Supplier Due Diligence

Canad Inns' suppliers are vetted through the corporate office and any significant contracts are signed by the CEO and/or President. Canad Inns' suppliers are expected to abide by its policies regarding business conduct as part of their agreement.

Canad Inns has initiated the distribution of supplier questionnaires, addressing concerns regarding the mitigation of child or forced labour within supplier activities. These questionnaires seek further details and supporting documentation from suppliers, serving as a due diligence measure to verify the accuracy of their responses. This proactive approach exemplifies Canad Inns' commitment to ethical sourcing practices and accountability throughout its supply chain.

Risk Assessment

A risk assessment of Canad Inns' industry of operation, goods procured and countries where goods are procured from has been performed over material direct suppliers. Material direct suppliers for the purpose of this reporting are those suppliers that make up the top 80% of procurement spend.

This risk assessment used two separate indices to conclude on the inherent risk of child and/or forced labour related to goods and countries - Walk Free's Global Slavery Index and the US Department of Labour's List of Goods Produced by Child Labour or Forced Labour.

Industry of Operations

Canad Inns operates within the hospitality industry. Canad Inns operates regionally and is based in Manitoba, Canada with mostly local suppliers which minimizes the risk of use of forced or child labour.

Countries Goods are Procured From

For countries of origin, 97.880% of suppliers are based in Canada while the remaining percentages are from the US, England, France, and Germany, all of which are low-risk countries per the Global Slavery Index by Walk Free Organization and the US Department of Labour.

Goods Procured

Per the 2022 List of Goods Produced by Child Labour or Forced Labour published by the US Department of Labour's Bureau of International Labour Affairs, food supplies and hospitality materials belong to high and extreme-risk categories. Canad Inns minimizes the risk of forced and child labour by procuring locally.

Remediation of Forced & Child Labour

To mitigate the risk of child labour and forced labour within supply chains, Canad Inns has initiated the distribution of questionnaires to suppliers to evaluate this risk across its supply chain. From the initial responses received, no instances of child labour or forced labour were identified yet.

Remediation of Vulnerable Family Income Loss

Canad Inns is in the process of understanding and evaluating its supply chain related to the risk of child and

forced labour. To date, Canad Inns has not identified instances of the use of child labour or forced labour within its operations or those of suppliers. Canad Inns will review procurement practices to enhance the rigor of its due diligence processes including raising awareness with its suppliers.

Awareness Training

In fiscal year 2023, the CEO, VP of Financial Information Services, and President attended a training on Bill S-211. This training included the following:

- An overview of the Act and other similar laws around the world, the definition of forced and child labour, and its forms along with some examples of child and forced labour both globally and in Canada.
- A snapshot of how modern slavery looks recently including statistics of how many people are suffering from modern slavery around the world.
- Common key drivers of forced and child labour such as the absence of rights, lack of physical safety, poverty and inequality, criminality, and corruption among others.

Training pertaining to this Act is yet to be provided to employees and Canad Inns recognizes the opportunity to enhance employee training relevant to this Act, therefore, will be evaluating applicable training for staff in the foreseeable future.

Self-Assessment Process & Requirements

Beginning in 2024, Canad Inns has started a self-assessment and internal accountability process in relation to forced and/or child labour.

Though the assessed risk for forced and child labour within Canad Inns is low, Canad Inns will continuously assess and determine if there are areas in its supply chain that are at risk of forced or child labour.

To track Canad Inns' effectiveness of procedures to mitigate the risk of child labour and forced labour, the following will be assessed:

Internal Activities

1. Policy review: Canad Inns has committed to refine policies to ensure relevance and accuracy based on the current operating conditions in accordance with this Act.
2. Orientation Manual: this document is available to all employees to ensure that they familiarize themselves with Canad Inns' policies and serves as a valuable resource and reference in understanding Canad Inns. This document will also be refined to ensure relevance and accuracy based on the current operating conditions in accordance with this Act and would include reporting any incidents of forced and child labour.
3. Code of Conduct Acknowledgement: During employee onboarding, signing the code of conduct demonstrates their understanding and commitment. Canad Inns periodically requires sign-off from existing employees. This process ensures ongoing adherence to company standards and practices.

Supplier Activities

1. Supplier Questionnaires: Canad Inns is in the process of collecting questionnaire responses from suppliers. These questionnaires specifically ask suppliers for details about their risks and processes related to child labour and forced labour.
2. Annual Attestation: on a risk-based approach, Canad Inns will require selected suppliers to provide a yearly attestation that its business practices align with the requirements of Bill S-211.

Conclusion

Given that Bill S-211 is a new act, Canad Inns will continue to evolve its internal processes. Canad Inns has started the assessment of forced and child labour within its supply chain and recognizes the opportunity to provide awareness among its employees about forced and child labour.
