Cymax Supply Chain Compliance Annual Report for the 2023 Financial Year

1. Introduction

At Cymax Group Technologies Ltd. (“Cymax”), we are committed to acting ethically and with integrity in all of our business dealings and relationships, and to promote compliance with applicable laws and protect the dignity and rights of all people connected to our business.

This is Cymax’s first supply chain compliance annual report pursuant to Canada’s *Fighting Against Forced Labour and Child Labour in Supply Chains Act* (S.C. 2023, c. 9), made for the financial year commenced January 1, 2023 and ended December 31, 2023. This report underlines Cymax’s commitment to preventing and mitigating risks of forced labour and child labour across its business and supply chain.

2. Structure, Activities and Supply Chains

Cymax is an e-commerce technology and logistics services platform which provides drop-shipping services for the furniture industry in Canada and the US. It currently employs 190 people in Canada and the US, and operates solely in these two countries. As a drop-ship business, Cymax: (a) provides an online platform where furniture retailers can directly access third-party online marketplaces (e.g., Amazon) and Cymax’s own direct-to-consumer online marketplaces (e.g., Home Square), (b) facilitates the processing of purchase orders and the logistics of the shipment of furniture between Canadian and American purchasers, retailers, and suppliers, and (c) coordinates the shipping of furniture products directly from suppliers’ warehouses to the customers’ addresses. All of Cymax’s vendors and suppliers are based solely in Canada and the US.

To learn more about our business, please see <https://www.cymaxgroup.com>.

3. Risk Assessment

Within our operations, we have assessed our risk profile based on sector and industry risks as low. All of our workers are employed in Canada and the US, and we have fair and responsible employment practices in place to protect and promote workers’ rights.

That said, we recognise that risks of modern slavery may be present in our supply chain. While all of our vendors and suppliers are based in Canada and the US, we have reason to believe that the majority of them source their products from countries where forced labour laws are weaker or not well enforced (e.g., Asia, including China, Malaysia, Vietnam, and India). We are committed to better understanding underlying risks in the coming financial year, namely by mapping our supply chain and conducting risk assessments.

In the coming financial year, Cymax is committed to better understanding the forced labour and child labour risks underlying its supply chain.

4. Policies and Due Diligence

Our Whistleblower Policy contained in our Team Member Handbook reflects our commitment to acting ethically and with integrity in all our business relationships and to enforcing effective systems and controls to prevent, among other things, illegal, fraudulent, dishonest, or unethical conduct or activity, including forced labour practices from taking place in our business and supply chain.

Cymax will continue to strengthen the processes it has in place to reduce risks related to forced labour and child labour within its operations and supply chains.

5. Training

Although Cymax does not presently offer formal training programs or materials specifically targeted at the prevention of forced labour and child labour in its supply chain, it is actively considering the development of appropriate resources to increase awareness of the issue among its employees.

6. Remediation Measures

In this reporting period, no instances of forced labour or child labour have been identified in Cymax's operations or supply chains, and, as such, no remediation measures have been necessary and no measures could have led to loss of income to the most vulnerable families.

7. Assessing Effectiveness

Cymax does not currently assess the effectiveness of our actions in preventing and reducing risks of forced labour and child labour in our operations and supply chain. As we explore and implement measures to prevent and mitigate such risks in our operations and supply chains, we will monitor and review performance to assess the effectiveness of any actions taken.

8. Approval of the Report

This report was approved pursuant to delegation of authority granted by the Board of Directors of Cymax Group Technologies Ltd. in accordance with subparagraph 11(4)(b)(ii) of the *Fighting Against Forced Labour and Child Labour in Supply Chains Act* on May 30, 2024.
