
ANNUAL REPORT

Organization

Falcon Equipment Ltd is a privately held company incorporated in 1988 and manufactures and distributes truck mounted equipment in Western Canada. It falls under the jurisdiction of the laws of Canada and the provinces of British Columbia, Alberta, Saskatchewan and Manitoba. The mind and management of the company resides and operates out of its head office in Surrey BC. Falcon Equipment purchases products to manufacture its goods primarily from within Canada and to a lesser degree the United States and in rare circumstances from select, high profile vendors in Europe.

Policies & Procedures

Falcon Equipment Ltd has adopted a Modern Slavery Policy, Appendix I, within the organization. Included in this policy is a questionnaire for at risk vendors, Appendix II.

Falcon evaluates total spend by vendor on an annual basis and identifies and evaluates vendors with addresses outside of Canada and the United States. These vendors are then further evaluated for potential risks of forced labour within their supply chains.

Business Risk

There are few portions of our business that would be considered to have forced labour within the supply chain. Significant vendors North America have been reviewed. See Appendix III for spend by vendor by jurisdiction.

Remediation

No steps for remediation have been taken as this is not believed to be necessary at this time.

Training

Discussions with professional bodies of accountants and lawyers has taken place by members of the company executive team to understand our legal requirements. Upcoming training for senior members of the supply chain will take place to identify potential risks of forced labour within our supply chain. This will be a required course for this position and a member of the executive team.

Effectiveness

The company reviews the effectiveness of this policy by analyzing on an annual basis the spend by jurisdiction. No other action is taken.

Attestation

This report is deemed approved by the Chief Financial Officer, Eric Poersch CPA, CGA on May 28, 2024.

1. PURPOSE

Falcon Equipment Ltd. (Falcon) is dedicated to preventing and reducing the risk of the use of forced labour and child labour in its supply chain activities. By ensuring that our supply chain activities screen for and reduce the use of forced labour and child labour, we will not only be compliant with the Federal Government's requirements enacted in the *Fighting Against Forced Labour and Child Labour in Supply Chains Act, 2023* (also known as the "**Modern Slavery Act**") but also it will advance our collective vision of providing safe and efficient service to our customers.

Our goal is to ensure that we put in place reasonable measures that will enhance due diligence in our supply chain activities, facilitate our legal reporting requirements and ultimately help mitigate the risk of the use of forced labour and child labour in supply chains.

At Falcon, we are opposed to all forms of forced labour and child labour in our supply chain activities. Through the adoption and implementation of this *Forced and Child Labour in Supply Chain Policy* (the "**Policy**"), we will use our best endeavors through our due diligence process and reporting obligations to ensure forced labour and child labour are avoided and/or reduced in the supply of the goods and services that we procure from our suppliers and that we provide to our clients.
