Assessment of Our Effectiveness in Ensuring that Forced Labour and Child Labour Are Not Being Used In Our Business and Supply Chains

In 2023, no instances of modern slavery or human trafficking involving our suppliers were detected or reported. During 2023 we reviewed and updated our Global Code of Business Conduct, along with our Global Vendor Code and anti-trafficking training material. The Corporate Compliance Committee continued to meet quarterly along with reporting to the Boler Board of Directors quarterly.

We also carried out control assessments of our suppliers and regularly visit them to ensure they are meeting our standard of business.

In 2024 we will continue the above items, along with reviewing our Anti-Trafficking policy, updating it to include global legislative changes.

Conclusion

Hendrickson is committed to preventing and fighting all forms of modern slavery and human trafficking in our business and supply chains. We will continue to regularly review our processes, policies, and practices in order to continually identify opportunities for improvement.
