

## The Supply Chains Act Report

### Introduction

Forced labour can be found in every country and every sector. The International Labour Organization estimates that there are approximately 27.6 million victims of forced labour worldwide, including 17.3 million in the private economy. Forced labour and child labour risks occur primarily through the global supply chains of businesses.

There is a risk that goods imported into and distributed in Canada were produced with forced labour or child labour. Entities and government institutions and doing businesses in Canada have a responsibility to ensure that exploitative practices are addressed and eradicated from their supply chains.

The measures introduced (the "**Supply Chains Act**"), aim to increase industry awareness and transparency and drive businesses to improve practices.

Palladino Management Inc. ("**PM**") is defined as an "Entity" under the Supply Chains Act and, therefore must submit an annual report to the Minister of Public Safety. The report must detail the steps taken during the previous financial year to prevent and reduce the risk that forced labour or child labour is used in our supply chains.

All reports will be made available to the public in two ways:

- In a prominent location on PM's website
- In an electronic registry on the Public Safety Canada's website

The following information uses the Minister's online questionnaire as the template for the report.
