RD International Style Collections Ltd. is a fashion wholesaler that serves customers mainly in Canada and the USA. Our current fiscal year started December 1, 2023 and ends November 30, 2024.

This is our first report we are submitted related to the use of forced or child labour. We are categorized as a business entity that meets the size related threshold.

Our supply chain consists of third-party manufacturers based in Bangladesh, China and India. Our supply chain partners that handle our freight are all based in Canada and have been established for decades.

While we have determined that there is a risk of forced or child labour in our industry, we already have a company policy to work with manufacturers overseas that have been WRAP certified. The Worldwide Responsible Accredited Production group (WRAP) is an organization that promotes safe, lawful, humane and ethical manufacturing standards by auditing facilities around the world.

We also have third party agents working in each country that visit the factories in order to inspect the goods that are being produced, so we have a direct link to ensure that the factories where the goods are being produced remain compliant.

If we are ever made aware of the use of forced or child labour, we would cease activities with the company immediately. We currently offer no training to our employees.

This report was prepared in accordance with the requirements of the Act, and in particular section 11 thereof, I attest that I have reviewed the information contained in the report for the entity or entities listed above. Based on my knowledge, and having exercised reasonable diligence, I attest that the information in the report is true, accurate and complete in all material respects for the purposes of the Act, for the reporting year listed above."

I have the authority to bind 'RD International Style Collections Ltd.'
