RE: Bill S-211

To Whom it may concern,

We are writing to you to express our commitment to the prevention of forced labor and child labor in our supply chain. We believe that every worker has the right to work in a safe and healthy environment, free from exploitation and abuse.

As part of our commitment, we have implemented a policy that prohibits the use of forced labor and child labor in any of our operations or supply chains. We expect our suppliers to share our commitment and to comply with all applicable laws and regulations related to forced labor and child labor.

To ensure compliance with our policy, we will be conducting annual tours of our supplier facilities. These tours will be conducted by our team of experts who will assess the working conditions and practices of our suppliers.

We believe that our commitment to the prevention of forced labor and child labor is an important step in ensuring that our products are produced in a responsible and ethical manner.

Kind Regards,
